

BEST ULTRA-SHORT-THROW PROJECTOR

Optoma UHZ65UST

OPTOMA'S UHZ65UST INTRODUCES largescreen home cinema images without the traditional installation considerations of a projector. Able to craft a 100in picture from a throw distance of less than a metre, it's designed for living room setups, and is aided by a 3500 Lumens brightness rating that ensures pictures retain pop even in daylight viewing. The DLP optics deliver a 4K resolution, supported by HDR playback and the projector's trio of HDMI inputs. The onboard sound system, developed by brand stablemate NuForce, creates a punchy, clear and detailed stereo soundstage that's far above the projector norm, and serves double duty as a fuss-free Bluetooth speaker.

PRODUCT DETAILS

PRICE £3300
TYPE Ultra-short-throw 4K projector
WEIGHT 11kg
DIMENSIONS (WxHxD) 576 x 383 x 130mm
